From the Desk of Principal

Dear Parents ,

Namaskar

May the New year 2025 bring you closer to your goals and fill your life with love and happiness.

It is a proud privilege to share few words with you through this column of the News letter . Nelson Mandela rightly said - "Education is the most powerful weapon you can use to change the world".

Education is a shared commitment among dedicated teachers, motivated students and enthusiastic parents with high expectations. The success of students depends on a strong partnership between the school and parents. I wish to thank all the parents for their faith in us.

Let us be partner together so that we can see children being successful in whatever path they choose to tread . Since the inception of the school with the support of our dynamic management and consistent efforts of staff members and the parents we have proved ourselves to be the torch bearer through the unique work of comprehensive education. Following the New Education Policy initiated by the CBSE we focus on activity based teaching. In every subject the teachers assign activities, guide them how to perform beautifully with confidence. This activity based teaching learning process has become an integral part of our curriculum .Apart from classroom activities we have been paying attention to the outdoor games and sports. The students are getting proper training of Taekwondo, Judo, Music, Dance ,Volleyball etc under the supervision of skilled and experienced teachers. Recently our budding stars took part in Delhi state mini sub junior under 11 Judo Competition which was held on 24th of December and bagged first and third positions.

Keeping the board exams of classes 10th and 12th in mind extra classes have been provided to the slow learners on regular basis.

English communication has been made compulsory for all the students and staff members.

I hope that with the support and dedicated efforts of our enthusiastic teachers and parents we will do better for the all round development of our students.

With Warm Wishes

You all have potential to excel in your career. For this you have to enhance your dedication ,devotion and determination towards your goal . Endeavour, caliber and dedication are the most important key factors behind a successful person . One should never worry about one's future prospects. Instead, it is more important to lay sound foundations, have sufficient enthusiasm and an accompanying passion for one's chosen field of study. It has always been our endeavour to groom our students to face the challenges of life. I feel pleasure to say that the School has scaled the height of glory and excellence. I am confident that the school is providing quality education connecting the students with religious sentiments. There are countless challenges facing the present world which is striving to establish peace among people, cultures and nations. Our school is doing its best to drive home the message of a peace. We should also initiate the initiatives in spite of setbacks to have the desired result.

I applaud all the students and staff members who have involved themselves in this holy endeavour and anticipate that successive batches of classes 10th and 12th will maintain the enriched traditions of the school accomplishments and progress.
